# KRAKEN

Written by Skot Wilson | Directed by Rebecca Hill

**FRESHEET: MARCH 2020**

**VAULT FESTIVAL 2020**

Pit - The Vaults, Leake Street

Tues 3<sup>rd</sup> March - Sun 8<sup>th</sup> March 2020, 19:30 (+ Sunday matinee 16:30)

Simon & Trixie work in a submersible mining station at the bottom of the sea. Their relationship is falling to pieces, but they can deal with that later. They just don't want to be left behind in the climate crisis. Every day, they dig up rare earth minerals which the planet needs for green batteries, electric cars, and new mobile phones. No one said going green would be easy.

It's business as usual until they meet Archie - a giant squid...

Kraken is a classic (and the only) underwater climate crisis capitalist-cephalopod romance. It's a story about monsters, and what (or who) we're prepared to throw away.

## TEAM

Writer	Skot Wilson
Director	Rebecca Hill
Producer	Bradley Leech
Designer	James Donnelly
